

# The Unexpected Creature

## Instructions:

1. In groups of no more than four, each person has a strip of 'Unexpected Creature' and a pen/pencil.
2. Important notes!
  - Each time the strip is passed around make sure the portion/s already drawn are hidden/covered so the next person can't see it. No peeking!!!!!!!
  - Also make sure it's clear where the previously drawn body part is ending so the next body part is drawn connected to it.
3. After drawing the head and neck in the first portion with the bottom of the neck slightly crossing the bottom line of this portion, each person passes their strip onto the next person.
4. In the next portion everyone draws the torso and arms, with the bottom of the torso slightly crossing the line at the bottom of this portion. Each strip is then passed on to the next person.
5. The third portion is for the bottom/hip area of our creature. Everyone draws this part of the creature making sure it connects to the torso and slightly crosses over to the next portion below.
6. After passing the strip around, everyone draws the legs and feet in the fourth and last portion. Make sure the legs connect to the bottom/hips. The creature is now complete. One more pass.
7. If you have four people in your group the strip with the head that you drew will be back in your possession. Have a look at your 'Unexpected Creature'. Give it a name. Have a look at how everybody else's creature turned out.

# Unexpected Creature

Creature's Name:

Head to base of neck
Torso including arms
Bottom/hips
Legs including feet
