

Pros and Cons

Practice weighing up the pros and cons of these options and then 'go with the pros' to help make your final choice.

Scenario: You find a wallet on the ground at school and your friends tell you to keep it. What do you do?

Option #1 - <i>Keep the wallet.</i>		Option #2 - <i>Return wallet to school office so they can hopefully find the owner.</i>	
Pros	Cons	Pros	Cons

My choice is option # 1/2, because...

Scenario: There's a family gathering happening this weekend that you're really excited about, but your best friend has just invited you to go to Rainbows End on the same day. You are allowed to choose which one you go to. Which one do you go to?

Option #1 - <i>Go to the family gathering</i>		Option #2 - <i>Go to Rainbows End with your best friend</i>	
Pros	Cons	Pros	Cons

My choice is option # 1/2, because...

Scenario: It's your birthday and you are allowed to choose between having a party at home with a few friends or going to a movie and dinner at your favourite restaurant with one friend. What do you choose to do?

Option #1 - <i>Party with a few friends</i>		Option #2 - <i>Movies and dinner with one friend.</i>
